01. INTRODUCTION

Centro de Cirugía de Mínima Invasión
Minimally Invasive Surgery Centre
Jesús Usón

Infraestructuras
Científicas y Técnicas
Singulares

*The Minimally Invasive Surgery Centre
“Jesús Usón”, a Unique Scientific and
Technical Infrastructure (ICTS).*

It has been rewarded as “Unique” by the Spanish Government and is located few kilometres far from the Cáceres town, a world heritage site and near the Monfragüe National Park. It offers an excellent space to organise any sort of event: congresses, conferences, forums, symposia, B2B encounters, exhibitions, concerts...

2007

*The CCMIJU
inaugurates
its innovative
facilities.*

20.200 m²

Devoted to:
- research
- training
- preclinical services
- knowledge transfer

Accreditations

02. EVENTS FACILITIES

 » **Space under surveillance**

RESIDENCE

 » Surface: **700 m²**

Equipped with:

- » **15 double rooms**
- » **complete bathroom**
- » **satellite tv**

 » **Wifi** connection

 » **Air conditioning** and **heating**

A person wearing a blue sweater is operating a control room. They are pointing at a control console with their right hand while holding a black cylindrical object with their left hand. In the background, there are several monitors. The top monitor displays a red digital clock showing '14:34:55'. The monitor below it shows a blue-tinted image of a person. The control console has various buttons, knobs, and a small display with green lights. The overall scene is a professional control room environment.
